Summary

I am a full-stack developer with a proven track record of delivering scalable web solutions using modern frameworks. My expertise includes developing user-centric applications, designing REST APIs, and optimizing user experience. I thrive in collaborative environments and am committed to creating responsive and accessible web designs.

Experience

Freelancer
Software Developer   04/2024 - Present

Freelancer software developer specializing in user-centric applications.

- Developed and maintained user-centric web applications using React.js and Redux.
- Designed and implemented REST APIs for dynamic and scalable data exchange.
- Resolved critical bugs and optimized features to enhance user experience by 20%.
- Collaborated with cross-functional teams to deliver efficient UI components.
- Ensured responsive and accessible web design across multiple devices.

Projects

Good Blogger
https://publisher.goodblogger.co & https://advertiser.goodblogger.co

- Developed a backlink management platform connecting advertisers and publishers. Advertisers promote their websites while publishers monetize by sharing backlinks. Built using Next.js, Tailwind CSS, and MySQL, with Laravel handling the backend services.

Houseopia
https://houseopia.com

- Built a property listing and real estate platform for advanced property search and management. Integrated in-app calling, chatting, and live streaming features using Agora to ensure agent anonymity. Developed using Laravel, Tailwind CSS, and MySQL for a scalable backend and modern UI.

Cloud Accodmodation
URL

- Building a platform using Next.js, Tailwind, Node.js, and MongoDB to help students easily find and book accommodations abroad. The site offers a seamless experience with modern UI and efficient backend services. Platform allows users to add properties and earn as well.

Education

Amity University   Gwalior
Bachelor of Technology in Computer Science   08/2019 - 07/2023

Amity University   Gwalior
Minor in Machine Learning   08/2019 - 07/2022
